BOOKS AND BOOK CHAPTERS

Coronary Artery Disease: New Approaches without Traditional Revascularization
Ed: GW Barsness MD and DR Holmes Jr. MD

Scientific Basis of Healthcare: Angina
Ed: CR Martin, MD and VR Preedy, MD

Angina Pectoris
Ed: Federico Piscione
Chapter 6, The Role of Enhanced External Counterpulsation Therapy in Management of Coronary Artery Disease, 137-158. Ozlem Soran. Rijeka, Croatia: InTech, October 2011

External Counterpulsation: A Novel Therapy to Stimulate Arteriogenesis
Nikolaos Pagonas, MD
Südwestdeutscher Verlag für Hochschulschriften AG Co. KG, 2011

Heart Failure: Device Management
Ed. Arthur Feldman, MD, PhD
Chapter 13. The Role of Enhanced External Counterpulsation in Heart Failure Management, 151-164. West Sussex, UK: Blackwell Publishing 2010

Enhanced External Counter-pulsation
Jami Shakibi, MD, FACC
Self-Published, Tehran, Iran 2008

Heal Your Heart with EECP: The Only Noninvasive Way to Overcome Heart Disease
Debra Braverman, MD
Berkley, California: Celestial Arts, 2005

Passing on Bypass
Chapters 8-10
George Juetersonke, DO Pikes Peak Press, 2001
JOURNAL ARTICLES

Adaptation of External Counterpulsation Based on Individual Shear Rate Therapy Improves Endothelial Function and Claudication Distance in Peripheral Artery Disease. EE Buschmann, M Brix, L Li, J Doreen, A Zietzer, M Li. VASA. Zeitschrift für, 2016

Enhanced External Counterpulsation (EECP) Decreases Advanced Glycation End Products and Proinflammatory Cytokines in Patients with Non-Insulin-Dependent Type II Diabetes Mellitus for up to 6 Months Following Treatment. Sardina PD, Martin JS, Dzieza WK, Braith RW. Acta Diabetol. 2016 Jun 9

Enhanced External Counterpulsation (EECP) Improves Biomarkers of Glycemic Control in Patients with Non-Insulin-Dependent Type II Diabetes Mellitus for up to 3 Months following Treatment. Sardina PD, Martin JS, Avery JC, Braith RW. Acta Diabetol. 2016 May 14

Impact of Enhanced External Counterpulsation on Heart Failure Rehospitalization in Patients with Ischemic Cardiomyopathy. Kristen M. Tecson, PhD, Marc A. Silver, MD, Sonja D. Brune, CNS, Clay Cauthen, MD, Michael D. Kwan, MD, Jeffrey M. Schussler, MD, Anupama Vasudevan, PhD, James A. Watts, MD, Peter A. McCullough, MD, MPH DOI: http://dx.doi.org/10.1016/j.amjcard.2015.12.024

Enhanced External Counterpulsation Is an Effective Treatment for Depression in Patients With Refractory Angina Pectoris. Prim Care Companion CNS Disord. 2015 Aug 20; 17(4).May O, Søgaard HJ.

The Enhanced External Counterpulsation as a Method of Non-Invasive Auxiliary Blood Circulation Used for the Combined Rehabilitative Treatment of the Patients Surviving after Ischemic Stroke (A Review). Eneeva MA, Kostenko EV, Razumov AN, Petrova LV, Bobyreva SN, Nesuk OM. Vopr Kurortol Fizioter Lech Fiz Kult. 2015 May-Jun; 92 (3) :45-52

Longer Treatment Duration is Associated with Better Functional Outcome in Counterpulsation-Treated Recent Ischemic Stroke Patients. Wen Hua Lin, Jinghao Han, Xiang-Yan Chen, Li Xiong, Ho wan Leung, W.H. Leung, Yannie Soo, Lawrence Wong. BMJ Open, 2013 (to be published).

The Effectiveness of Enhanced External Counterpulsation (EECP) in Patients Suffering from Chronic Refractory Angina Previously Treated with Transmyocardial Laser Revascularisation. Poay Huan Loh,

Early Enhanced External Counter Pulsion Improves Neurological Recovery after the Return of Spontaneous Circulation in a Mongrel Dog Cardiac Arrest Model. Hu, Chun-Lin, Liu, Rong, Liao, Xiao-Xing, Wei, Hong-Yan, Li, Xin, Zhan, Hong, Jing, Xiao-Li, Xiong, Yan, Huang, Guo-Qing, Wu, Gui-Fu. Critical Care Medicine: June 2013 - Volume 41 - Issue 6 - p e62–e73. doi: 10.1097/CCM.0b013e318278b469

External Counterpulsation Augments Blood Pressure and Cerebral Flow Velocities in Ischemic Stroke Patients with Cerebral Intracranial Large Artery Occlusive Disease. Wenhua Lin, Li Xiong, Jinghao Han, Thomas Wai Hong Leung, Yannie Oi Yan Soo, Xiangyan Chen, Ka Sing, Lawrence Wong. Stroke. 2012; 43:00-00

Comparison of Long Term Clinical Outcomes, Event Free Survival Rates of Patients Undergoing Enhanced

Enhanced External Counterpulsation (EECP) Improves Peripheral Artery Function and Glucose Tolerance in Subjects with Abnormal Glucose Tolerance. Martin JS, Beck DT, Aranda Jr. JM, Braith RW. First published

Effect of Enhanced External Counterpulsation on C-Reactive Protein and Interlukin-6 in Patients with Coronary Heart Disease. WEI Hai-zhu. Hainan, China Hainan Medical J. 2011; 22(3):56-57

Effect of Enhanced External Counterpulsation on Circulating CD34+ Progenitor Cell Subsets. Kiernan TJ,

Enhanced External Counter Pulsation for Refractory Angina Pectoris; Results from a First Case Series. Ahmed, W, Akhter N, Masood, A. Journal of Pakistan Medical Association 2010: 60; 692-694

The Efficacy and Safety of Enhanced External Counterpulsation in Patients with Peripheral Arterial Disease.

Enhanced External Counterpulsation Improves Systolic Blood Pressure in Patients with Refractory Angina.

Comparison of Patients Undergoing Enhanced External Counterpulsation and Spinal Cord Stimulation for Refractory Angina Pectoris.

Passive Tobacco Exposure May Impair Symptomatic Improvement in Patients with Chronic Angina Undergoing Enhanced External Counterpulsation.
Efstratiadis S, Kennard ED, Kelsey SF, Michaels AD; International EECP Patient Registry-2 Investigators. BMC Cardiovascular Disorders. 2008 Sep; 8 (23).

Long-term Effect of Enhanced External Counterpulsation on Endothelial Function in the Patients with Intractable Angina.

Is Counterpulsation a Potential Therapy for Ischemic Stroke?

Enhanced External Counterpulsation in the Treatment of Chronic Refractory Angina: A Long-Term Follow-up Outcome from the International Enhanced External Counterpulsation Patient Registry.

Preliminary Findings of External Counterpulsation for Ischemic Stroke with Large Artery Occlusive Disease.

The Semantic Extension and Storage of EECP Hemodynamic Waveforms Based on DICOM Standard.

Effect of Enhanced External Counterpulsation on Inflammatory Cytokines and Adhesion Molecules in Patients with Angina Pectoris and Angiographic Coronary Artery Disease.

Effects of Enhanced External Counterpulsation (EECP) on Myocardial Perfusion.

Echocardiographic Characteristics Including Tissue Doppler Imaging After Enhanced External Counterpulsation Therapy.

Enhanced External Counterpulsation and Future Directions: Step beyond Medical Management for Patients with Angina and Heart Failure.

An Analysis of the Efficacy and Safety of Enhanced External Counterpulsation at West Virginia University Hospitals.

Residual High-Grade Angina after Enhanced External Counterpulsation Therapy.

Impact of External Counterpulsation Treatment on Emergency Department Visits and Hospitalizations in Refractory Angina Patients with Left Ventricular Dysfunction. Soran O, Kennard ED, Bart BA, Kelsey SF. Congestive Heart Failure. 2007 Jan-Feb; 13(1):36-40

**Enhanced External Counterpulsation Reduces Lung/Heart Ratio at Stress in Patients with Coronary Artery Disease.** Lee CM, Wu YW, Jui HY, Chen MF, Lee YT, Soran O. Cardiology. 2006 May 9; 106(4):237-240 [Epub ahead of print]

**Mechanisms and Evidence for the Role of Enhanced External Counterpulsation in Heart Failure Management** Silver MA. Current Heart Failure Reports. 2006 Apr; 3 (1):25-32.

**Two-Year Clinical Outcomes after Enhanced External Counterpulsation (EECP) Therapy in Patients with Refractory Angina Pectoris and Left Ventricular Dysfunction (Report from the International EECP Patient...**

Predictors of Benefit in Angina Patients One Year after Completing Enhanced External Counterpulsation: Initial Responders to Treatment versus Nonresponders. Lawson WE, Hui JCK, Kennard ED, Barsness G, Kelsey SF. Cardiology. 2005 Apr 13; 103 (4):201-206

Ongoing and Planned Studies of Enhanced External Counterpulsation. Conti CR. Clinical Cardiology. 2002 Dec;

Changes in Ocular Blood Flow Velocities during External Counterpulsation in Healthy Volunteers and

Long-Term Prognosis of Patients with Angina Treated with Enhanced External Counterpulsation: Five-Year Follow-Up Study. Lawson WE, Hui JCK, Cohn PF. Clinical Cardiology. 2000 Apr; 23 (4):254-258.

EECP Therapy Continues to Demonstrate Potential as a Treatment for Chronic Angina. Lang M. Cardiovascular Disease Management. 1999 Nov.
